

Introduction

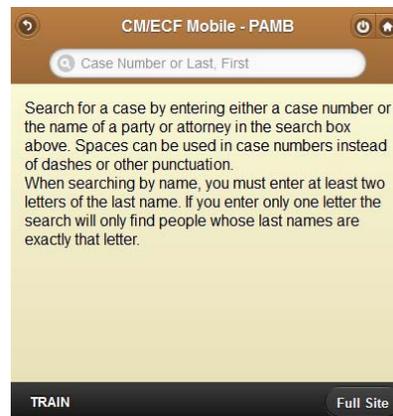

This document summarizes the changes you will notice when CM/ECF is updated to Release 5.1. The titles in **red** indicate what differences you will see based upon the type of user you are.

Internet Browsers - **ALL USERS**

- Release 5.1 was tested and works correctly with Internet Explorer 8 and 9, Firefox 15.0; 16.0; 17.0; 17.1 and Safari 6.0.1.

Mobile CM/ECF Query Access – **ALL USERS**

- As an enhancement to the PACER Case Locator (PCL), CM/ECF Release 5.1 includes a limited query display optimized for mobile use. The PCL will now direct mobile device users to this new interface.

- Users are required to provide a PACER login as this application bills for information retrieval in the same manner as the main application query.
- This limited interface allows searches by Case Number or Party Name and text searched on docket entries in a single selected case. Outputs include Attorney, Party, Deadlines and Docket Entries. A full site link allows users to access the standard CM/ECF site for any additional information.

- A new “Mobile Query” link is shown on the Query Screen allowing users to access this feature from within the application.

Query

Warning: you will be billed for the total number of pages (this report is not subject to the 30-page limit on PACER charges).

Search Clues Mobile Query

Case Number

Last / Business Name (Examples: Desoto, Des*t)

First Name Middle Name

SSN / ITIN Tax ID / EIN

Type Open cases Closed cases

Last Entry Date to

Nature of Suit (AP and MP cases only)

01 (Determination of removed claim or cause)
 02 (Other (e.g. other actions that would have been brought in state court if unrelated to bankruptcy))
 11 (Recovery of money/property - 542 turnover of property)
 12 (Recovery of money/property - 547 preference)

Docket Report Enhancements – ALL USERS

- Previously the Claims Register link which displayed on the Docket Report did not display claims recorded in CM/ECF prior to 1/1/2004. This has been corrected in Release 5.1.

RSS Feed Improvements – ALL USERS

- The RSS feed has been expanded to report the previous 24 hours. Previously only 12 hours were reported by the RSS feed.
